The American National Standards Institute Certificate Accreditation Program (ANSI-CAP) accredits organizations that issue education and training certificates to U.S. workers. Backed by a nationally recognized and respected standard, ANSI accreditation provides the strongest assurance of quality and market distinction for an organization’s certificate program and alerts consumers, employers, and overseers to the excellence of the training provided and the value of the certificates issued. ANSI is a private nonprofit organization whose mission is to enhance U.S. global competitiveness and quality of life by promoting, facilitating, and safeguarding the integrity of the voluntary standardization and conformity assessment system.
The American Student Association of Community Colleges (ASACC) is an Affiliate Council of AACC. ASACC is the only national organization representing exclusively America’s nearly 12 million community college students. We represent and provide information to student leaders and advisors regarding federal programs including Pell grants, student loans, childcare, and textbook costs. ASACC represents the importance of lifelong learning as the foundation of the nation’s social and economic progress. It holds that everyone should enjoy educational access and equity to maintain our global competitiveness. ASACC has threefold mission, building student leaders in the areas of leadership, citizenship, and advocacy.

Franklin University’s Community College Alliance (CCA) is a 3+1 degree completion program, offered online. The program builds on the associate degree and allows students to complete a bachelor of science degree without leaving their local communities. CCA was founded in 1998 as an outgrowth of Franklin’s mission to serve working adults with accessible education. More than 250 institutions have joined Franklin’s CCA program. Throughout the student’s completion of the bachelor’s degree, the two-year college and Franklin work together to provide this education option for students.

The activities of INTELECOM Intelligent Telecommunications can be traced back to the late 1960s. Early “telecourses” from INTELECOM were similar to the Sunrise Semester series broadcast by CBS. Successive courses became more sophisticated in academic design and production quality. Telecourses such as “The Mechanical Universe” formed the basis of distance learning classes throughout the 1980s and 1990s. Today, INTELECOM is a premier provider of digital learning resources and curriculum-based content for higher education. By combining the best in educational content, technology, and instructional design, INTELECOM offers colleges the tools they need to improve learning outcomes and achieve growth.

Neighborhood Networks is a Department of Housing and Urban Development (HUD) initiative of more than 1,400 community technology centers. It was one of the first federal initiatives to promote self-sufficiency and help provide computer access to HUD FHA-insured and -assisted housing communities. To accomplish these goals, the community-based initiative encourages property owners and managers to establish multiservice community learning centers that bring digital opportunities and lifelong learning to residents.
