

SOUTH 2017

The Student Experience in 2017

South students benefit from a Guided Educational Pathway with individualized plans tailored to meet their needs.

Strong Start: Students benefit from a structured first-year experience. Students get the guidance and resources they need to develop an individualized educational, financial and career plan.

Structured Programs: South’s programs are structured to help students progress and complete, through features such as support for early completion of “gateway” courses and annual schedules with courses and sequences.

Seamless Support Services—Students are fully supported during their educational experience at South with coaching, tutoring, proactive monitoring and structured support programs.

Model for Student Success

Strong Start	Structured Programs	Seamless Support Services
<ul style="list-style-type: none"> •Students get individualized educational and career plans •Structured career exploration/assistance with program selection/educational plans •Funding and support plans •Expanded interventions for "undecided" students 	<ul style="list-style-type: none"> •Promising and proven instructional approaches leading to improved student learning •Structured pathways, including cohort models, in selected academic, professional-technical & apprenticeship programs •Early completion of "gateway" courses •Reformed developmental math/English pathways •Required "entry" classes leading to specific majors 	<ul style="list-style-type: none"> •Completion Coaches •Prescriptive Tutoring •Proactive monitoring of student progress •Expansion of productive persistence •Structured student support programs to include interventions at 15, 30 and 45 credits
