CHRISTINE BARROWS

June 7 at 10:30pm

Hi Everyone. I'm taking classes to receive a certificate in computer programming. Software developer is a possible job/career for me. I watched the video on the Virtual Job Shadow site and I see this job could incorporate my interests. I am leaving my mind open to all possible programming jobs/careers.

Dawn Ellis Welcome to CCIT, Christine. Programming is a great field of study. If you find that you really like solving and problems and writing code solutions, the certificate rolls in the Computer Programming and Analysis A.S. degree. Just a thought 😊
