Dear Members of the Board Committee on Director and Membership Services:

It gives me great pleasure to recommend Dr. Belinda Miles, President of the Westchester Community College, a State University of New York institution, as a candidate to join the Board of Directors for the American Association of Community Colleges. I have known Dr. Miles for over five years as a colleague and friend since she was at Cuyahoga Community College in Ohio as an Executive Vice President.

She is a transformational president whose tenure has been marked by a significant improvement in the graduation rates at her college through her dogged focus, with her team and the faculty at Westchester on student success and completion.

She is a gifted speaker. I have seen her captivate an audience of executives who aspire to the presidency about the best practices of her college in fulfillment of the mission of the institution and its strategic priorities.

She serves, and has served, on numerous boards and organizations that expand economic and workforce development and increase institutional capacity for the institutions that she has served. She has become an inspirational leader in the internal and external communities that she serves.

She is also a wonderful steward of resources in furtherance of the mission of the institution and advocates successfully for the interests of her institution and its students.

She will be a dedicated member of the board and will serve our membership well. She comes with my highest recommendation.

Kindest regards,

Re: Nomination of Dr. Belinda Miles

Dear Board Committee on Directors and Membership Services,

I am pleased to endorse Dr. Belinda Miles' nomination for membership on the Board of the AACC. In a relatively short time, two years, since joining Westchester Community College (WCC) as President, she has made significant advances in leading the College. The graduation rate has increased, the College graduated its largest number of students, and she has overseen the successful acquisition of a \$1 million grant to establish an Achieving the Dream program in the model established in the City University of New York community colleges. In all observable respects she has provided stable and forward-thinking leadership for WCC.

Dr. Miles is widely respected within the State University of New York and is becoming a prominent voice in leadership among a new cadre of Presidents. She would serve excellently as a member of the AACC Board, and I heartily endorse her candidacy.

Sincerely,

Dear Committee on Directors and Membership Services:

I find myself in the awkward position of wishing to write a letter of support for Belinda Miles' nomination to the AACC Board but to not have access to any secretarial staff in the holiday season to acquire letterhead, sign, send, or scan!

Despite not being in compliance with the requested format, I hope you will accept this email note of support from me. Dr. Miles is a valued colleague here in the mid-Hudson Valley of New York. We both inherited membership on an atypical and admired consortium called the Hudson Valley Educational Consortium (HVEC) of the six regional public community colleges. Belinda has been a strong proponent of the power of collaboration, especially as it relates to workforce education.

In our professional interactions, I have admired Belinda. She is a rightly motivated leader, always thinking on behalf of all the underserved students that community college strive to reach. I have observed how she took on leadership of an institution that only knew one president for the past 40 years and has found ways to move the College in appropriate modern directions...no easy task for a new president in the environment she's in.

I believe Dr. Miles will bring an incredibly valuable viewpoint to the Board of Directors. I hope you will look favorably upon her, and this technically invalid letter of support.

Please let me know if I can follow up with these words on letterhead with signature as soon after December 31 as can be arranged.
