

**Our goal is to capture the notes and outcomes and share with the community**

Question 1: When did you become aware that your institution is an HSI and what types of changes have occurred, are in progress, or do you think still need to be made? What are some of the challenges that you are facing (you, your institution, your students) and potential solutions?

Question 2: How well does your classroom reflect the demographic of the college and why do you think this is the situation? How well does faculty reflect the demographic of the college?

Question 3: What resources/solutions would better help you support your students and to what extent do you have access to these types of resources/solutions in your community?
